

Mirrored Cabinet and Bath Light Recessed Dimensions

Please ignore this information if your cabinet or light is a surface mount style

GENERAL CONCEPT FOR RECESS MOUNTED CABINETS

The recessed opening in wall must exist or be cut out as outlined. The cutout must be large enough to handle the recessed part of the cabinet as outlined below by model.

Opening should not be so large that the cabinet or bath light face cannot cover any special nails or cut marks from making the cut-out.

Mirrored Cabinet Recessed Dimensions

Model Number	Mirrored Cabinet	Size in inches W X H
